

## Conceptions of Courage

Consider the ways in which your views of courage were shaped. How did your family, role model(s), movies, stories, and books influence your beliefs about courage? Use the shadowed space to jot down notes. To help spark memories, review the Story Cubes on the next page.

Then, set a timer for three minutes and speak about each of these influences, recalling what, in each of these examples, you admire.  
(Hint: it's the memories that pop into your mind as powerful images.)

In reviewing all of these examples, what are you realizing about your views on courage?  
Identify one opportunity where you can draw upon these conceptions of courage.

**Family**

**Role Model**

**Movies**

**Stories**

**Books**

## Story Cubes

Story Cubes are an excellent resource to help elicit memories. As you attempt to recall situations where you formed beliefs about courage, look at the dice that were thrown below and see if any images trigger a memory. For added fun, try to connect as many dice as possible as you retell your stories.
